EDUCATION

Maulana Abul Kalam Azad University of Technology

Bachelor of Technology in Computer Science and Engineering; CGPA: 77%

West Bengal, India

Aug. 2021 – May 2025

West Bengal Council of Higher Secondary Education

Higher Secondary (12th); Percentage: 84%

West Bengal, India

2021

PROJECTS

Dhenumahima – Cow Welfare & E-commerce Platform | *Next.js, Node.js, MySQL, PhonePe* June 2024 – Present

- Architected full-stack platform integrating donation management, e-commerce, content streaming, and subscription services for cow welfare organization serving 500+ daily users
- Integrated PhonePe payment gateway for donations and AutoPay for magazine subscriptions with webhook validation, achieving 85% payment success rate and reducing transaction failures
- Developed role-based authentication system using JWT supporting Admin, Subscriber, and Guest roles with granular access control for premium content protection
- Built secure e-commerce module for digital PDF books with encrypted file storage, purchase validation, and tokenized download system preventing unauthorized access
- Implemented music streaming service with protected audio delivery, playlist management, and user-friendly player for devotional content library
- Deployed production application on VPS using Coolify with custom domain, SSL certificates, and CI/CD pipeline achieving 99% uptime
- Optimized application with Next.js SSR/SSG improving SEO visibility by 60% and reducing page load time by 40%
- Configured automated cron jobs for subscription renewals, payment reminders, and system maintenance ensuring reliability

Academic Management System | *React.js, Node.js, Express.js, MongoDB, Zustand*

Jan. 2024 – May 2024

- Developed role-based academic platform with JWT authentication serving 200+ users including administrators, teachers, and students
- Implemented CRUD operations with dynamic search, server-side pagination, and automated PDF report generation for academic transcripts
- Created teacher dashboard enabling mark entry, grade management, and student analytics with real-time data validation
- Built admin control panel with user management, bulk operations, and permission controls for system-wide administration
- Integrated Zustand state management resolving complex data synchronization across 15+ React components
- Optimized MongoDB queries using compound indexing and aggregation pipelines, reducing response time by 70%
- Implemented WebSocket-based real-time notifications for grade updates and administrative announcements
- Applied security best practices including input validation, XSS protection, HTTPS enforcement, and secure file handling

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C/C++, SQL, HTML5, CSS3

Frameworks & Libraries: Next.js, React.js, Node.js, Express.js, Tailwind CSS, Zustand, Bootstrap

Databases: MySQL, MongoDB, Query Optimization, Database Indexing

Developer Tools: Git/GitHub, Postman, VS Code, npm/yarn, Linux, Coolify

Technologies: REST API, JWT Authentication, PhonePe Gateway, WebSocket, Server-Side Rendering, CI/CD, VPS Deployment, SSL/HTTPS

CERTIFICATIONS

Full Stack Web Development (0-100) | Python (Basic) – HackerRank | Complete Python Pro Bootcamp

Mastering C++ | Data Structures & OOP with C++ | HTML, CSS, JavaScript, React

JDBC, DAO & SQL Practical Course | JavaScript, PHP & Python Programming Complete Course
